advised that the fire which was reported in the Washington Star on 15 November was caused by an electric motor in a sump pump between two of the buildings in the DD/P area. I cautioned him that this was the second occasion within recent weeks in which the Director had found out about a small fire from reading about it in the newspaper and that we should take pains in the future to report any such occurrence to without delay, as 25X1A9a well as to Stanley Grogan.

9. Gates Lloyd and I discussed with Frank Wisner and the pro-25X1A9a posed assignment next summer of as Chief of the Support Mission on 25X1A9a It was agreed that Ted should take this assignment. We all had reservations as to who should replace him as Chief of Administration and it was agreed that we would think about the matter and come up with a list of possible candidates for consideration. Frank and Dick emphasized that they had made no commitments to anyone in this direction.

10. Ed Saunders and I met with of the NEA Division to discuss a request for the release of funds from the Reserve for a special project which has been approved by the Operations Coordinating Board. I also discussed this matter with the Director who told me that we should get \$3,000,000 from the Bureau of the Budget for the project. In addition, the Operations Coordinating Board has approved of the withdrawal from the Reserve of \$1,250,000 for the purchase of I will try to clear both of these matters with the Bureau of the Budget on 18 November.
